

Directions:

For MAC

- Slip your mouse on the button "Download", then select the resolution that suits you. The picture will open in a second window.
- Click on the picture by holding the "Ctrl" key and select "Save as".
- Go in the Pomme menu of your computer and choose "System Preferences". You then only have to open "Desktop & Screen Saver" and select the saved picture using the button "Select the picture".
- Press the button "Choose".
